Taylor Administrators Attend Washington, D. C. Conference

President Evan H. Bergwall and Dean Harold T. Wiebe attended a conference of the American Association of College Presidents and Deans in Washington, D. C. from January 8th through the 10th. While there President Bergwall was introduced to the conference along with other new college presidents.

Speakers Announced For Youth Conference

The Youth Conference Cabinet announces that this year there will be two main speakers at the Conference instead of one main speaker and one sunrise speaker. They have secured as speakers Jimmy Johnson, Raleigh, North Carolina, and Reverend Park Anderson, Marshalltown, Iowa.

Jimmy Johnson, independent evangelist, has his own radio broadcast.

Reverend Park Anderson, a graduate of Taylor in 1934, was one of the founders of Youth Conference. He is now pastor of the Methodist church in Marshalltown, Iowa, and very active in youth work.

The missionary speaker is Rev. William Gillam, missionary to South America.

The Youth Conference Cabinet also releases the name of the composer of the winning chorus. Theresa Gibson, a commuter from Matthews and a junior at Taylor, composed the theme chorus for this year. With one year of piano for her musical background, Theresa wrote the following chorus:

Sound forth Christ as the King of Kings;
Tell all the world the love and joy our Savior brings.
He will heal every sorrow, grief, and woe.
Give entrance into your heart
And sound forth Christ where'er you go.

Registrations are already beginning to come in and it is estimated that this year's Youth Conference will be the largest in the history of the school. The dates for the conference are March 28th through the 30th.

Six Seniors Named for Who's Who

Working for a bachelor of arts degree, Pat is majoring in religion and minoring in philosophy. He is president of the Speech Club this year and chaplain of the Pi Eta Chi Kappa society. A New Year's Meditation

by Mr. Ralph R. Cummings

Assistant Professor of Sociology and Philosophy
and Director of Student Personnel Activities

Life today is filled with problems an uncertainty, but along with the vicissitudes we have great opportunity. Never has there been a generation presented with a greater challenge than this one. As we look at the task which is at hand and the turmoil of the future we are made mindful of the fact that we need a power and a wisdom which is higher and mightier than ourselves. Paul had found such a source of life in Christ when he said, "The love of Christ constrains me."

It appears that in facing life's situations man is held in a pattern of living by an unseen power of his own choosing. It is better to be ruled and governed by the highest and best motives and desires, than by those of lower origin. Through the power of God which constrains the Christian there is certain victory.

Our age has had a consuming passion for pleasure and the satisfaction of the fleshly desires. In our hedonism we have not only wasted our material economy but, as a nation, we have lost our sense of moral integrity. Today we are facing the storm on the steep slopes of the mountain of catastrophe with little certainty of direction or purpose of will.

It is the certainty and assurance that comes to the heart of the believer as he bows on the mount of Calvary which will give a direction out of the dilemma of this generation. As men

through the ages have turned to the Christ they have received a constraining power which has given them not only a goal of direction but also the power for accomplishing the task.

It was the love of Christ and love for Christ which controlled Paul, it left him no room for speculation on moral relativity, but gave him an inner assurance of His power and presence. It was in this glorious necessity of his life that he found it possible to serve his generation. He suggests that being controlled by the power of God leads to life in Christ. It takes more than subscribing to a creed or doctrine to make one victorious. It takes the recreative power of redemption which changes desires, motives and inner drives. In such a recreation God plants the constraining love of Christ within. To meet today's need we must be as one crucified with Christ, and yet alive with the power which brought Jesus forth from the tomb abiding within.

In the certainty of the abiding love of Christ we can take advantage of the many opportunities of our generation.

My Jesus as thou wilt;
Oh, may thy will be mine!
Into thy hand of love
I would my all resign;
Through sorrow or through joy
Conduct me as thine own,
And help me still to say,
"My Lord, thy will be done."

Walker Museum Moved To New Location

The Walker Museum has been moved to its new location in Room A-12 of the Administration Building. Conveniently located on first floor, this point of great interest on campus is now accessible for observation. The arrangement will be suitable for study for zoology students, history students, and missionary groups.

Dr. Clinton J. Bushey, associate professor of zoology, has supervised the planning and work of arranging the displays. He states that the final adjustments of the material are being made while there is still some painting to be done. Science classes have helped with moving and setting up the equipment.

Several paintings estimated at high value will be appraised and placed in suitable settings by Mrs. Marion May, head art instructor. Dr. John C. Wengatz, missionary to Africa who has donated a collection of weapons, idols, and other articles of handicraft, is expected to be on campus sometime during February to help in arranging the articles in the museum.

The value of the collections has been placed at \$30,000 and much of the material could never be replaced. It includes mounted skeletons of the elephant, llama, lion, and several other animals, and the bones of a famous mastodon discovered near Taylor in 1928. Collections of minerals, fossils, and ores are also on display.

Provision will be made for the room to be open definite periods for study and observation. Dr. Bushey states that anyone who would like to contribute articles to the collection in the museum is welcome to do so.

Dr. Bushey shows mastodon, excavated by Prof. Furbay in 1928 near Taylor, to Miriam Deyo and Lewis Burns. Miss Deyo's father, Rev. Wallace Deyo, helped in the excavation.
